ASAIO TRANSACTIONS-VOLUME 35

Subject Index

Editors' Note: This index encompasses only the material presented in ASAIO TRANSACTIONS Volume 35, Numbers 1, 2, and 4. Please consult the July–September issue (Vol. 35, No. 3) for an index of the contents of that body of work.

A

Abdominal complications of peritoneovenous shunts, 176
Acute renal failure, "prophylactic daily dialysis" for, 2
AIDS. *See* Human immunodeficiency virus
Alcoholic cirrhosis. *See also* Cirrhosis
  ascites in
    medical treatment of, versus peritoneovenous shunting, 174
    peritoneovenous shunt functions 2–6 years after insertion for, 170
Alkalosis, metabolic, induced by regional citrate hemodialysis, 22
Anaphylatoxins, removal of, from circuit of blood-perfused artificial organs, possibility of biocompatibility improvement by, 778
Anion gap, of patients receiving bicarbonate maintenance hemodialysis, 800
Apneic oxygenation, for respiratory falure, in newborn, hemodialysis for ECBicCO_2 R and, 30
ASAIO membership directory, 73
ASAIO publications, 1
Ascites
  in cirrhosis, pathogenesis of, 161
  treatment of
    in alcoholic cirrhotics, medical treatment versus peritoneovenous shunting for, 174
    peritoneovenous shunts in 160, 165
      function 2–6 years after insertion of, 170
      medical treatment versus, 174
    rational approach to, 163
Ascitic fluid
  absorption of, 122
  drainage of. *See also* Ascites, treatment of
    Minnesota shunt for, 168

B

Bacterial peritonitis of CAPD, role of catheter removal in therapy of, 40
Bicarbonate, extracorporeal removal of, hemodialysis for, and apneic oxygenation for respiratory failure, in newborn, 30
Bicarbonate deficiency, *in vivo*, and insulin dissolution, 26
Bicarbonate maintenance hemodialysis, anion gap of patients receiving, 800
Biocompatibility, possible improvement in, by removal of anaphylatoxins from circuit of blood-perfused artificial organs, 778
Biofiltration, renal, 8
Bionic devices, experience with, 119
Bioprosthetic heart valves, polyurethane trileaflet valves and, hemodynamic comparisons of, 132
Blood-perfused artificial organs, anaphylatoxin removal from circuit of, possibility of biocompatibility improvement by, 778
Blood pumps, development of, 767
Blood trauma, impeller assist heart and, 46

C

CAPD. *See* Continuous ambulatory peritoneal dialysis
Carbon dioxide, extracorporeal removal of, hemodialysis for, and apneic oxygenation for respiratory failure, in newborn, 30
Cardiac defects, congenital and acquired, collagen sealed Dacron implantation for, 816
Cardiac surgery, heart–lung machine for, 767
Cardiovascular devices. *See also specific type*
  implantable, infections and thromboembolism with, 54
Catheters, removal of, in therapy of bacterial peritonitis of CAPD, 40
Circulation, extracorporeal, with membrane lungs, application of surfaces with end point attached heparin to, 146
Circulatory compensation, in cirrhosis with ascites, 161
Cirrhosis
  ascites in. *See also* Ascites
    medical treatment of, versus peritoneovenous shunting, 174
    pathogenesis of, 161
    peritoneovenous shunt function 2–6 years after insertion for, 170
  causes of death in 160
Citrate hemodialysis, regional, metabolic alkalosis induced by, 22
CO_2. *See* Carbon dioxide
Collagen sealed Dacron, implantation of, for congenital and acquired cardiac defects, 816
Complement activation, *Limulus* amebocyte lysate reactivity and, patients' symptoms and, 812
Computer software, 71
Congenital cardiac defects, collagen sealed Dacron implantation for, 816
Continuous ambulatory peritoneal dialysis (CAPD)
  bacterial peritonitis of, role of catheter removal in therapy of, 40
  HIV virus prevalence among patients undergoing, 144
  relevance of urea kinetic modeling to, 784
Cross-linked hemoglobin, metabolic fate of, plasma retention and, 153
Cuprophan membranes, complement activation and, *Limulus* amebocyte lysate reactivity and, 812

D

Dacron, collagen sealed, implantation of, for congenital and acquired cardiac defects, 816

Dementia, dialysis, 820
Diabetes. *See also* Insulin
  chronic treatment for, through insulin delivery by implanted pump, 5
Dialysis. *See also* Hemodialysis; Peritoneal dialysis
  daily, prophylactic, for acute renal failure, 2
  disease associated with, 820
Dialysis Management System software, 71
Dialyzer membranes, comparison of, 812

E

Eudragit RL, microencapsulation of pancreatic islets in, 791
Extracorporeal bicarbonate/CO_2 removal, hemodialysis for, and apneic oxygenation for respiratory failure, in newborn, 30
Extracorporeal circulation, with membrane lungs, application of surfaces with end point attached heparin to, 146
Extracorporeal membrane oxygenation, platelets and (Letter), 832

F

Filtration, renal, 8
Fluid, absorption of, from peritoneal cavity, 122
Fluidized bed, vibrated, in coating of hemoperfusion adsorbents, 139

G

Grafts, vascular. *See* Vascular prostheses

H

HBS (heparin bonded surfaces), application of, to extracorporeal circulation with membrane lungs, 146
HCO_3. *See* Bicarbonate *entries*
Heart
  artificial
    recent research on, in Czechoslovakia, 805
    total, infections and thromboembolism with, 54
  impeller, hemolysis of, reduction of, 46
Heart defects, congenital and acquired, collagen sealed Dacron implantation for, 816
Heart–lung machine, for open-heart operations, 767
Heart valves. *See* Valves, bioprosthetic
Hemodiafiltration, renal biofiltration, 8
Hemodialysis. *See also* Dialysis
  bicarbonate maintenance, anion gap of patients receiving, 800
  disease associated with, 820
  for $ECBicCO_2R$, and apneic oxygenation for respiratory failure, in newborn, 30
  regional citrate, metabolic alkalosis induced by, 22
Hemoglobin, cross-linked, metabolic fate of, plasma retention and, 153
Hemolysis, of impeller assist heart, reduction of, 46
Hemoperfusion adsorbents, vibrofluidized bed coating, 139
Heparin, end point attached, application of surfaces with, to extracorporeal circulation with membrane lungs, 146
Hepatic assist, membranes used in, 765
Hepatitis, dialysis and, 820
Human immunodeficiency virus, prevalence of, among patients undergoing CAPD, 144
Hypertonic peritoneal dialysis, estimation of lymphatic absorption and intraperitoneal volume during (Letter), 178
Hypoxia, in dogs, peritoneal oxygenation and, 35

I

Immunodeficiency. *See* Human immunodeficiency virus
Impeller assist heart, hemolysis of, reduction of, 46
Implants
  collagen sealed Dacron, for congenital and acquired cardiac defects, 816
  infections and thromboembolism with, 54
Infants, newborn, respiratory failure in, apneic oxygenation for, hemodialysis for $ECBicCO_2R$ and, 30
Infections, thromboembolism and, with implantable cardiovascular devices, 54
Insulin
  dissolution of, *in vivo* bicarbonate deficiency and, 26
  intraperitoneal, dose response curve for, 17
Insulin delivery, by implanted pump, 5
Interdimeric covalent cross link, hemoglobin modified with, metabolic fate of, plasma retention and, 153
Intraperitoneal insulin, dose response curve for, 17
Intraperitoneal volume, estimation of, during hypertonic peritoneal dialysis (Letter), 178
Islets. *See* Pancreatic islets

K

Ketoacidosis, diabetic, bicarbonate deficiency in, insulin dissolution and, 26
Kidney. *See also* Renal *entries*
  artificial, experience with, lessons gleaned from, 119

L

LeVeen peritoneovenous shunt, 170. *See also* Peritoneovenous shunts
Limulus amebocyte lysate reactivity, complement activation and, patients' symptoms and, 812
Liver, transplantation of, ascites and, 163
Liver failure, and membranes used in hepatic assist, 765
Lungs, membrane, extracorporeal circulation with, application of surfaces with end point attached heparin to, 146
Lymphatic absorption, estimation of, during hypertonic peritoneal dialysis (Letter), 178

M

Maintenance hemodialysis, bicarbonate, anion gap of patients receiving, 800
Membrane(s)
  dialyzer, comparison of, 812
  used in hepatic assist, 765
Membrane lungs, extracorporeal circulation with, application of surfaces with end point attached heparin to, 146
Membrane oxygenation, extracorporeal, platelets and (Letter), 832
Metabolic alkalosis, induced by regional citrate hemodialysis, 22
Metabolism, of cross-linked hemoglobin, plasma retention and, 153

Microencapsulation, of pancreatic islets, in water insoluble polyacrylate, 791
Minnesota shunt, 168

N

Newborn, respiratory failure in, apneic oxygenation for, hemodialysis for ECBicCO_2R and, 30

O

Open-heart operations, heart–lung machine for, 767
Overflow hypothesis of pathogenesis of ascites in cirrhosis, 161
Oxygenation
  apneic, for respiratory failure, in newborn, hemodialysis for ECBicCO_2R and, 30
  membrane, extracorporeal, platelets and (Letter), 832
  peritoneal, or normoxic and hypoxic dogs, 35
Oxygenators, development of, 767

P

Pancreas, transplantation of, current status of, 14
Pancreatic islets, microencapsulation of, in water insoluble polyacrylate, 791
Perfusion, long-term, and application of surfaces with end point attached heparin to extracorporeal circulation with membrane lungs, 146
Peritoneal cavity, fluid and solute absorption from, 122
Peritoneal dialysis. *See also* Continuous ambulatory peritoneal dialysis; Dialysis
  hypertonic, estimation of lymphatic absorption and intraperitoneal volume during (Letter), 178
Peritoneal oxygenation, of normoxic and hypoxic dogs, 35
Peritoneovenous shunts
  in ascites management, 160, 165
    and function 2–6 years after insertion, 170
    medical treatment versus, 174
  complications of, 176
Peritonitis, bacterial, of CAPD, role of catheter removal in therapy of, 40
Plasma retention, and metabolic fate of hemoglobin modified with interdimeric covalent cross link, 153
Platelets, extracorporeal membrane oxygenation and (Letter), 832
Polyacrylate, water insoluble, microencapsulation of pancreatic islets in, 791
Polyurethane trileaflet valves, bioprosthetic heart valves and, hemodynamic comparisons of, 132
Prophylactic daily dialysis, for acute renal failure, 2
Prostheses. *See* Valves, bioprosthetic; Vascular prostheses
Pump-oxygenators, 767
Pumps. *See also* Heart; Ventricular assist devices
  blood, development of, 767
  implanted, insulin delivery by, 5
PVS. *See* Peritoneovenous shunts
Pyogenic reactions, dialysis and, 820

R

Regional citrate hemodialysis, metabolic alkalosis induced by, 22
Renal biofiltration, 8
Renal Data Base Program, 72
Renal failure. *See also* Kidney
  acute, "prophylactic daily dialysis" for, 2
Respiratory failure, apneic oxygenation for, in newborn, hemodialysis for ECBicCO_2R and, 30

S

Screening, for HIV virus, 144
Septicemia, dialysis and, 820
Shunts
  Minnesota, 168
  peritoneovenous
    in ascites management, 160, 165
      and function 2–6 years after insertion, 170
      medical treatment versus, 174
    complications of, 176
Software reviews, 71
Solutes, absorption of, from peritoneal cavity, 122
Surfaces, with end point attached heparin, applications of, to extracorporeal circulation with membrane lungs, 146
Surgery, open-heart, heart–lung machine for, 767
Survival, ascites and, medical treatment versus peritoneovenous shunting for, 174

T

TAH. *See* Heart, artificial, total
Thromboembolism, and infections, with implantable cardiovascular devices, 54
Total artificial heart. *See* Heart, artificial, total
Traditional hypothesis of pathogenesis of ascites in cirrhosis, 161
Transplantation. *See specific organ*
Trileaflet valves, polyurethane, bioprosthetic heart valves and, hemodynamic comparisons of, 132

U

Unitary hypothesis of pathogenesis of ascites in cirrhosis, 161
Urea kinetic modeling, relevance of, to CAPD, 784

V

Valves, bioprosthetic, heart, hemodynamic comparisons with polyurethane trileaflet valves, 132
Vascular prostheses, collagen sealed Dacron, for congenital and acquired cardiac defects, 816
Ventricular assist devices, infections and thromboembolism with, 54
Vibrated fluidized bed, in hemoperfusion adsorbent coating, 139

W

Water, absorption of, from peritoneal cavity, 122
Water insoluble polyacrylate, microencapsulation of pancreatic islets in, 791
